Funza — Usability questionnaire

Thank you for trying Funza. This takes about 8 minutes. Your answers are anonymous and only used by our team (Aubin Chriss Izere and Chop Kur, ENSE 400) to improve the design. There are no right answers; we are testing the app, not you.

Participant number (we fill this in): ____ Date: 20 October 2026

Part A — About you

A1. Program and year: _____

A2. How do you usually study from lecture PDFs? Tick all that apply.

- ☐ Re-read the slides
- ☐ Make my own notes or flashcards
- ☐ Ask ChatGPT or a similar tool to explain things
- ☐ Do past papers or tutorial questions
- ☐ Study with other people
- ☐ Other: _____

A3. How often do you use AI tools (ChatGPT, Copilot, Gemini and so on) for studying?

- ☐ Never
- ☐ Sometimes
- ☐ Most weeks
- ☐ Almost every day

Part B — Overall (System Usability Scale)

Circle one number per line. 1 = strongly disagree, 5 = strongly agree.

	Statement	1	2	3	4	5
B1	I think I would like to use Funza frequently.	1	2	3	4	5
B2	I found Funza unnecessarily complex.	1	2	3	4	5
B3	I thought Funza was easy to use.	1	2	3	4	5
B4	I think I would need help from a technical person to use Funza.	1	2	3	4	5
B5	I found the different parts of Funza worked well together.	1	2	3	4	5
B6	I thought there was too much inconsistency in Funza.	1	2	3	4	5
B7	I imagine most students would learn to use Funza very quickly.	1	2	3	4	5

	Statement	1	2	3	4	5
B8	I found Funza very awkward to use.	1	2	3	4	5
B9	I felt confident using Funza.	1	2	3	4	5
B10	I needed to learn a lot of things before I could get going with Funza.	1	2	3	4	5

Part C — Design directions

Same scale: 1 = strongly disagree, 5 = strongly agree. Leave a line blank if you did not try that part.

	Statement	1	2	3	4	5
C1	The talking mascot made the lesson feel like a tutor rather than a quiz.	1	2	3	4	5
C2	I would turn the voice on when studying alone.	1	2	3	4	5
C3	Getting a hint instead of the answer was helpful, not annoying.	1	2	3	4	5
C4	Having to try three times before I could see the answer felt fair.	1	2	3	4	5
C5	The interactive demo helped me understand the idea better than the text alone.	1	2	3	4	5
C6	Being asked to predict what happens next made me think.	1	2	3	4	5
C7	I always knew what to do next.	1	2	3	4	5
C8	I understood where each lesson came from (built-in sample, or my own PDF).	1	2	3	4	5
C9	I would trust questions that Funza made from my own lecture PDF.	1	2	3	4	5
C10	Asking Funza "What am I looking at?" gave a useful answer.	1	2	3	4	5
C11	The look and feel (colours, mascot, layout) suits a study app.	1	2	3	4	5
C12	I would use Funza to prepare for a midterm.	1	2	3	4	5

Part D — What matters most

Rank these five ideas from 1 (most important to you) to 5 (least important). Use each number once.

Rank	Idea
___	Hints and retries instead of being given the answer
___	A talking mascot that explains things out loud
___	Interactive demos that stop and ask me to predict what happens next
___	Lessons and questions made from my own lecture PDFs
___	A tutor that can see what I am working on (and, if I choose, my shared screen)

Part E — In your own words

E1. What was the most confusing moment? What were you expecting to happen?

E2. Was there a moment you nearly gave up? What caused it?

E3. What is one thing Funza would need before you used it for a real course?

E4. What is one thing you would remove or turn off?

E5. Would you let a study app see your screen? (Tick one, then say why.)

- ☐ Yes
- ☐ Only a single screenshot that I check first
- ☐ No

Why: _____

E6. Describe Funza in one word: _____

Thank you. Please hand this back to the observer.
